

TRANSPORT AND LOGISTICS MANAGEMENT (AEC)

1 YEARS | 2 SEMESTERS

The Transport and Logistics Management program trains students on how to organize the transport of goods locally, nationally and internationally, and according to logistical principles that ensure fluidity from the reception stage to the delivery stage on the markets.

At the end of the program, the students will be able to perform the following tasks:

- ✔ Prepare and organize
- ✔ The shipment and receipt of goods
- ✔ The local, national and international transport of goods, in compliance with the laws and regulations governing it
- ✔ Establish optimized routes
- ✔ Analyze transport demands and goods to be transported taking into account several elements of various kinds
- ✔ Choose the best mode of transportation to meet customer service and profitability goals
- ✔ Negotiate transport tariffs
- ✔ Complete the documentation required in relation to the type of transport used (customs, billing, etc.)
- ✔ Insure the clearance of goods at customs
- ✔ Use warehouse, inventory and distribution management techniques
